2019 ACTION PLAN

Executive Summary

AP-05 Executive Summary - 24 CFR 91.200(c), 91.220(b)

1. Introduction

As required by the US Department of Housing and Urban Development (HUD), the Action Plan indicates the goals in which the funds are anticipated to be expended during January 01, 2019 through December 31, 2019.

The City of Warren and Warren Consortium currently receive the following funds:

- Community Development Block Grant (CDBG): the federal government has designated the City of Warren as an entitlement community
- HOME Investment Partnership (HOME): the City of Warren and Trumbull County are together recognized as a participating jurisdiction (the Warren-Trumbull HOME Consortium), with the City of Warren operating as lead agency in the provision of funding for affordable housing programs and development

2. Summarize the objectives and outcomes identified in the Plan

The Jurisdiction's main objective is to provide for the needs of the LMI and underserved population of the community.

The demographics of the community (approximately 50% of the population are under 18 or over 65 years of age) show a need for both youth and senior services. The goal is to provide the needed services such as transportation, after school tutoring and mentoring programs, recreation and educational services that are essential for seniors and youth.

With the age, condition, and real estate values of the housing stock in targeted neighborhoods it becomes more and more costly to rehabilitate and perform the needed lead abatement with the limited funds available. It is the Jurisdiction's intent to provide decent affordable housing to those in need by leveraging additional funding through non-profit partners, agencies, and governmental services.

The City of Warren has a major problem with aging infrastructure. Replacement and/or reconstruction of the City's streets, sidewalks, sewer, and water lines are ongoing and costly. The aim of the Jurisdiction is to assist in providing a suitable living environment for those living in the targeted area of the city.

The underserved LMI population has a higher unemployment rate. The Jurisdiction's objective will be to make the needed efforts to attract new businesses or grow existing ones in order to provide job

opportunities. The creation of jobs will increase the wealth and economic vitality of those targeted populations.

Approximately 18% of the population in the statistical area has some type of mental, physical, and/or learning disability. The special needs populations in the jurisdiction tend to be underemployed and chronically homeless. It is the goal of the jurisdiction to eliminate homelessness and provide a Continuum of Care by supporting emergency, transitional and permanent supportive housing.

3. Evaluation of past performance

The jurisdiction has made significant progress towards carrying out its five year strategic plan and in meeting HUD's National Objectives. Because CDBG and HOME funds are limited - a significant effort is being made to use these grant dollars to leverage funds from other sources. Some highlights in the fourth year of the current Consolidated Plan include:

A Commercial Asbestos Abatement and Demolition Project was completed in 2018. This project included the demolition of eleven structures, most of which were located in major corridors of the City of Warren. The removal of these blighted structures helped with the reduction of safety concerns of the surrounding properties and improving the visual aesthetics of the neighborhoods in which they were located.

Two road projects were completed in 2018 with the assistance of CDBG Funds; these two projects had a combined total of a little more than 1.2 Million dollars. By combining resources the City of Warren is able to cover a larger area which benefits the entire City of Warren.

4. Summary of Citizen Participation Process and consultation process

The Jurisdiction consults on a regular basis with non-profit and government agencies that provide services to LMI population.

The Citizen Participation process is ongoing through the year. This process includes Public Meetings, Public Comment Sessions, meetings with neighborhood associations, and citizen surveys. The Jurisdiction also uses a Citizens Committee appointed by both the Mayor and City Council to review all proposals on an annual basis.

5. Summary of public comments

Two Public comments sessions were held on Wednesday, June 05, 2019, no public comments were received.

6. Summary of comments or views not accepted and the reasons for not accepting them

Two Public comment sessions were held on Wednesday, June 05, 2019, no public comments were received.

7. Summary

The City of Warren's Strategic Plan or Consolidated Plan is a collaborative process through which communities identify housing and community development needs and establish goals, priorities, and strategies to measure progress.

The Jurisdiction uses consultations and need survey assessments from its non-profit and government agencies dealing with the needs of LMI population and input from citizens through public meetings, surveys, and its citizen committee.

The department also administers a wide range of community-based programs with the objective of improving economic opportunities and housing conditions within the city, as well as creating and maintaining partnerships with citizens and affiliated agencies to provide an array of proactive, responsive, and people-oriented service. Federally distributed funds constitute the majority of money available to the department in any given year; additional funds to support specific projects (often street, sewer, or other infrastructure improvements) are obtained through state and federal grants as well as private funding and foundation resources. Expenditures of each program administered by the Community Development Department are governed by a budget recommended by the Citizen Review Committee, approved by Warren City Council, and adopted by City Council Ordinance.

1. Introduction

Provide a concise summary of the jurisdiction's activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health and service agencies (91.215(l))

The City of Warren actively participates with government partners such as the Trumbull County Commissioners, the Trumbull County Planning Commission and the Trumbull County Metropolitan Housing Authority as well as neighboring townships, regional councils of government, and economic development boards to develop strategies and share information and resources to increase economic opportunities and provide affordable housing.

In addition the city provides funding for service agencies that provide for the needs of the community including emergency, transitional, and supportive housing; transportation needs; counseling and mentoring services; educational and recreational youth programs; etc.

Describe coordination with the Continuum of Care and efforts to address the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans, and unaccompanied youth) and persons at risk of homelessness.

The City of Warren is an active member of the Trumbull County Housing Collaborative which was established to coordinate and develop services and housing for homeless individuals, low income persons, returning veterans, and those with special needs. The Collaborative consists of representatives from more than 50 public, private, and nonprofit agencies with the common goal of providing a continuum of care for these individuals and their families. Since 1998 the collaborative has met on a regular basis to discuss housing needs, organize supportive programs and facilities and to address gaps in the system. The Collaborative uses the Continuum of Care planning process to gather input from providers and develop proposals to meet the needs of the community.

Describe consultation with the Continuum(s) of Care that serves the jurisdiction's area in determining how to allocate ESG funds, develop performance standards for and evaluate outcomes of projects and activities assisted by ESG funds, and develop funding, policies and procedures for the operation and administration of HMIS

Table 5 - Expected Resources – Priority Table

Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied

Due to the increasing cuts to funding through the Block Grant and HOME programs it more important now that the City looks ensure that our funds are used wisely to bring the most benefit to targeted areas and low-income residents we serve.

It is the policy of the Community Development Department to look more favorably upon funding requests that will use these federal dollars in conjunction with, or as leverage to, additional revenues sources for that particular project or program.

The City has successfully accessed state transportation funds, natural resource funds, text credits etc., under this policy and will continue exercising such diligence in approving any project for funding.

In addition, all applications for assistance from non –profits are required to exhibit a budget sheet showing other private and/or public sources of revenue to best serve their clientele.

All housing projects other than home owner repair and/or down payment assistance must identify source of match funds prior to commitment of the Participating Jurisdiction. In addition housing projects being undertaken by nonprofit housing organizations, i.e. Habitat for Humanity, Youthbuild, CHDOs, etc. are asked to demonstrate other sources of funding both monetary and in-kind in order to access federal funds.

If appropriate, describe publically owned land or property located within the jurisdiction that may be used to address the needs identified in the plan

In addition to public parks and park facilities, the City owns less than 15 acres that are former brownfield sites or are in some phase of environmental assessment/mitigation. These sites are being marketed as economic development opportunities for businesses that offer job opportunities for low-moderate people.

Discussion

As previously mentioned, due to the increasing cuts to funding through the Block Grant and HOME programs it more important now that the City looks to ensure that funds are used wisely to bring the most benefit to targeted areas and low-income residents we serve. To that end it is incumbent upon our political leaders to make smart choices that will bring about the best results for the community. In addition increasing the cooperation and coordination of both projects and initiatives with neighboring jurisdictions can leverage additional funding opportunities.

Table 6 – Goals Summary

Goal Descriptions

1	Goal Name	Economic Incentives
----------	------------------	---------------------

	Goal Description	<p>A lagging economy and unemployment rates that run between three and four percentage points higher than that of the county, state, and nation require continued public investment to stimulate local job creation. To combat declining tax revenues and promote a business-friendly atmosphere, and in order to remain competitive on national, state, and regional levels, the City of Warren will continue to utilize financial and non-financial incentives to attract and retain businesses that are moving or expanding. As a result, the City of Warren will utilize CDBG funds to:</p> <ul style="list-style-type: none"> • Aggressively pursue the location of smaller manufacturing and service firms to the City of Warren to stabilize the local employment base, including the creation of marketing materials which will be made available at the Chamber of Commerce, Convention and Visitors Bureau, trade fairs, and other locations where potential firms can be reached; • Promote increased employment levels for relocating companies, and those already located within the City of Warren • Expand funding for existing programs providing technical assistance to interest parties, including one-on-one consultations and seminars in which residents and citizens can learn more about starting a business in the City of Warren; • Develop relationships with local, regional, and state economic development representatives, utilizing local and state tax credits to encourage business investment, site location, or project types targeted for development; • Make continual improvements to the City of Warren's economic base, including (but not limited to) industrial park development, roadway improvements, land acquisition, the promotion of private investment, and state and federal facility recruitment; and • Set aside funding to develop and expand tax reinvestment districts, with projects that include (but are not limited to): accessibility improvements for disabled individuals, building acquisition and rehabilitation, business recruitment, facade restoration, land acquisition, parking and pedestrian enhancements, and infrastructure improvements. <p>Business expansion and retention programs place a great deal of emphasis on relationship building and the success of incentives as an economic development policy may be measured by the number of businesses visited, surveyed, and assisted in location or expansion; number of jobs created and/or retained; the cost per job created and/or retained; rate of hire for low- and moderate-income residents; economic diversification; and improved business perceptions of local government.</p>
--	-------------------------	---

2	Goal Name	Loan Programs
	Goal Description	<p>Small business development has traditionally been a major contributor to the economic base of the City of Warren and Trumbull County. Low-interest loans and tax abatement policies allow companies to reinvest and expand, increasing competitiveness in the local business climate. In order to provide this financial assistance, the City of Warren will utilize CDBG funds to:</p> <ul style="list-style-type: none"> • Target small businesses, both at start-up and expansion phases, that face limitations in accessing debt and equity financing; • Fill market gaps for those businesses considered a risk by larger commercial lenders and encourage those financial institutions which do not currently participate in City loan programs to do so; and • Increase participation in City loan programs, including (but not limited to): Revolving Loan Fund, Mini-Loan Fund, and CDBG Section 108 Loan Program. <p>These strategies will be measured by the number of businesses assisted, the number of women and minorities assisted, the number of jobs created and/or retained, the cost per job created and/or retained, the rate of hire for low- and moderate-income residents, diversification of local business, and the rate of loans to business failure (or ratio of start-ups to failure).</p>
3	Goal Name	Emergency Home Repair
	Goal Description	<p>Many low- to moderate-income householders (particularly seniors) are not able to perform routine maintenance on their homes, and cannot always afford to make needed structural repairs; these services are essential to preserve the existing housing stock and delay disrepair due to lack of resources. In order to combat the deterioration of owner-occupied, single-family homes in Target Area neighborhoods, the City of Warren will utilize CDBG funds to:</p> <ul style="list-style-type: none"> • Increase advertisement of the program, publicize quarterly in bulletins, social service provider offices, senior centers, and retail outlets; and • Continue providing program funding toward emergency rehabilitation projects for eligible single-family homeowners. <p>The success of the Emergency Home Repair program can be measured in number of applications taken, the number of projects completed per year, the level of maintenance five years after project completion, and the length of the homeowner's stay once the project has been completed.</p>

4	Goal Name	Owner-Occupied Housing Rehabilitation
	Goal Description	<p>A declining population combined with new housing construction in suburban communities frequently leads to disinvestment in older urban housing stock. Additionally, deferred maintenance of these units increases the rehabilitation cost of a structure, at times in excess of its value. To combat deterioration in Target Area neighborhoods over the 2015-2019 planning period, the City of Warren will utilize CDBG funding to:</p> <ul style="list-style-type: none"> • Continue providing funding to programs geared toward the preservation of existing housing units, rather than allowing these structures to become abandoned, deteriorate, and develop into hazardous sites that blight residential neighborhoods; and • Increase the level of participation in the program through supplementary marketing to eligible program applicants in church bulletins, at local service provider sites, and shopping/gathering places.
5	Goal Name	Homeownership Program
	Goal Description	The Warren/Trumbull HOME Consortium will continue the homeownership loan program to assist low to moderate income persons with down payment assistance on mortgage loans. Eligible borrowers can receive a deferred loan of \$5,000 towards down payment and/or closing costs to purchase a home. Local participating lenders will finance the remaining balance for up to 30 years at the current fixed real estate loan rates.
6	Goal Name	Multi-Family and Single-Family Housing
	Goal Description	The City of Warren as lead agency for the Warren-Trumbull HOME Consortium will continue to use HOME Program funds and Program Income to rehabilitate and construct housing units that are affordable to low- and moderate-income households. This includes independent, assisted, supportive and transitional housing for the elderly and group homes for disabled persons.

7	Goal Name	Homeless Support
	Goal Description	<p>Adequate housing and services for transient and homeless individuals is considered to be the most important need in both the City of Warren and Trumbull County. High priority populations include homeless persons, victims of domestic violence, physically and mentally disabled individuals, those persons suffering from AIDS and other diseases, and disaster victims who are stranded or in need of temporary shelter. Warren is committed to helping HUD achieve the goal of eliminating chronic homelessness in ten years; to that end, the City of Warren will use CDBG funds to:</p> <ul style="list-style-type: none"> • Support the establishment and operation of permanent supportive housing and men's transitional housing facilities; • Encourage the creation of a better tracking mechanism to coordinate support for homeless and at-risk individuals who are assisted by social service agencies, as well as emergency, transitional, and permanent housing facilities throughout Trumbull County; and • Support the Trumbull County Housing Collaborative in the preparation and implementation of the Blueprint to End Homelessness in the next ten years. <p>Achievements in homeless assistance can be measured by factors including number of individuals served, number of individuals placed in emergency, transitional, or permanent supportive housing, amount of funding programmed towards the construction of supportive housing facilities, and number of facilities built and occupied.</p>

8	Goal Name	Capital Improvements
	Goal Description	<p>Rebuilding the physical infrastructure of a community improves the local business climate and is often critical to the redevelopment of distressed neighborhoods. Programs to build roads, provide water and waste removal, other public infrastructure services, and provide substantial economic benefits, including job creation and business retention.</p> <ul style="list-style-type: none"> • Increase funding for street resurfacing projects, until all roadways within the Target Area neighborhoods have been repaired; • Set aside CDBG funding to seek outside sources of funding for needed Target Area infrastructure improvements; and • Improve slum and blight conditions by razing those unsafe structures which do not meet code in order to remain competitive with newer communities. <p>It should be noted that the benefits of infrastructure improvements are often not realized immediately, and should be evaluated after an appropriate period of time has passed. Once project have been completed and are integrated into the community, their success may be measured through the number of jobs created and/or retained, the amount of investment generated the number of new businesses created, condition of roads and transportation services, improved access, and community perception.</p>

9	Goal Name	Park Improvements
	Goal Description	<p>Parks, open space, and recreational facilities are economic necessities for urban areas. Many factors influence the decision of a company or an individual to move into or out of a city, and quality of life is a major consideration for both. Parks, trails, and aesthetics are crucial variables in enhancing quality of life; thus, improving the community through expansion and enhancement of public open space is a strategic initiative of the 2015-2019 planning period. In order to achieve lifestyle-oriented neighborhoods, the City of Warren will utilize CDBG funds to:</p> <ul style="list-style-type: none"> • Create and implement an organized recreational program for Target Area city parks; • Redesign city parks system and fund the construction or restoration of recreational facilities either unavailable or under-represented in Target Area Parks, and replace deteriorated play equipment and amenities including benches, tables, and waste receptacles. <p>The value of a linked and maintained parks system improves the economic, social, and physical conditions of a community; evaluation emphasizes qualitative improvements in image and quality of life. Important factors include rehabilitation of vacant and underutilized property near park facilities, range and quality of public-private partnerships supporting recreation initiatives, and increased community use of and involvement in the parks and opportunities provided therein.</p>
11	Goal Name	Youth Services
	Goal Description	<p>All young people require support, guidance, and the opportunity for education, recreation, and service throughout their adolescence; a time of rapid growth and change. Supervised intervention programs and recreational/educational activities can help young individuals develop a sense of self-assurance, encouraging social contribution, community activity, and control over their future. To encourage community engagement of city youth, the City of Warren will use CDBG funds to:</p> <ul style="list-style-type: none"> • Provide funding for those programs that support intervention in the lives of area low- and moderate-income youth, emphasizing education and social responsibility over recreation. <p>Success can be calculated by rate of drop-out, juvenile arrests, and drug/alcohol abuse amount area youth, as well as the interaction of young people with residents, particularly senior citizens.</p>

12	Goal Name	Elderly Services
	Goal Description	<p>As population in the City of Warren and Trumbull County continues to age, the provision of social services for elderly residents enables hundreds of older individuals to maintain their dignity and independence. To support residents of retirement age, the City of Warren will use CDBG funds to:</p> <ul style="list-style-type: none"> • Support programs that provide significant numbers of low- and moderate-income seniors with services including (not limited to) in-home services, home-delivered meals, and transportation. <p>Progress in alleviating burdens suffered by an ageing population can be tracked by the number of seniors served, and the interaction of the elderly with other residents, particularly young adults.</p>
13	Goal Name	Transportation
	Goal Description	<p>Public transportation programs make it possible for individuals who do not (or are not able to) drive to perform critical tasks, including medical appointments, business errands, and shopping activities. Only one fixed-route transportation system currently operates in the City of Warren; to maintain and improve this service, the City of Warren will utilize CDBG funds to:</p> <ul style="list-style-type: none"> • Continue to provide annual funding for those programs offering public transportation options to low- and moderate-income residents. <p>Success will be measured by the number of low- and moderate-income riders served and the number of routes running through Target Area neighborhoods.</p>

14	Goal Name	Other Public Service Projects
	Goal Description	<p>As part of a community revitalization strategy, the City of Warren will continue to support those public services provided by local non-profit organizations to low- and moderate-income residents, as well as those special needs persons. The need for neighborhood service programs to complement non-profit and private organizations continues to rise, resulting in serious competition for CDBG resources. Still, direct program grants are limited by a cap on public service funding, as well as recent community requests for increased investment in public infrastructure.</p> <p>The City of Warren will maintain a certain amount of funding for public service programs, though at a level which permits for permanent infrastructure and development projects to receive funding priority through the CDBG Program. All services which further the city's goal of promoting community organizations and renewal will be considered. These programs may be indirectly supported through capital improvements and recreational development in the city, as well as the enhanced quality of life that results from successful economic and community development activities.</p>
15	Goal Name	Program Administration
	Goal Description	General planning and overall management of HUD-funded activities performed by the Warren City Community Development Department.

Projects

AP-35 Projects – 91.220(d)

Introduction

The Jurisdiction uses consultations and assessment surveys from its non-profit and government agencies dealing with the needs of LMI population and input from citizens through public meetings, surveys, and its citizen committee in the decision making process.

Due to recent economic conditions funding opportunities from both the private sector and foundations have been severely limited. Thus the plan of action is to continue to work with partnering agencies to get the most benefit from the limited funding available to serve the needs of the LMI population in the community. Increased attention will be paid to homelessness issues and to those dealing with underserved youth.

Table 7 - Project Information

Describe the reasons for allocation priorities and any obstacles to addressing underserved needs

Allocation priorities are based on citizen input and collaboration with non-profit partners and agencies. The obstacle to addressing underserved needs in the jurisdiction is that those needs exceed the funding availability - both in direct funds from Federal sources, such as the Community Development Block Grant and HOME, and in the ability to leverage private and foundation dollars which have been limited by the economic conditions in the area.

AP-60 Public Housing – 91.220(h)

Introduction

Trumbull Metropolitan Housing Authority (TMHA) provides decent, safe and sanitary housing for low- to moderate-income families unable to secure housing needs on the open market. TMHA currently operates 1,249 public housing units in 13 Trumbull County developments, and serves approximately 2,300 low- and moderate income residents. In addition, participants in Section 8 New Construction and TMHA administered Housing Choice Voucher programs make up over 2,500 tenants in 1051 units.

Actions planned during the next year to address the needs to public housing

Nothing is currently planned, but TMHA is always reviewing options and possible projects.

Actions to encourage public housing residents to become more involved in management and participate in homeownership

TMHA provides a series of initiatives for resident education, including economic self-sufficiency, tenant homeownership, and drug prevention programs. Capital improvements at various developments include modernization of elevators, replacement of water and sewer lines, and the completion and full occupancy of a \$10.8 million dollar senior complex. Outside funding has been secured to renovate a basketball court, erect playground equipment, construct a baseball field, and erect a pavilion at Highland Terrace.

TMHA has continued to work with a local lending institution to advance homeownership opportunities for housing choice voucher participants and public housing residents alike. The importance of saving, credit worthiness, home maintenance, and other related issues are expounded upon so that participants may share in the American dream. Thirteen (13) families have purchased a home through this venture since program inception.

The TMHA Family Self Sufficiency program continues to be a catalyst for financial autonomy for public housing choice voucher participants. A combined total of eighty-one (81) families are currently involved in asset accumulation activities and social service programs which enable participants to overcome various obstacles to self-sufficiency. The Elderly Service Coordinator, in its fourteenth(14th) year of operation, has provided vital linkages to services for residents to receive the assistance necessary to maintain a self-reliant lifestyle. Supplemental grant funds were secured in order to provide services of an Elderly Service Coordinator at six (6) developments, wherein residents have been linked services in order to remain living independently. TMHA also continues to collaborate with resident tenant organizations by participating in jurisdiction wide resident council meetings and hosting public hearings on issues of importance to the community.

According to the PHA Five Year Action Plan, TMHA goals include:

- Enhance attractiveness and marketability of housing stock and neighborhoods
- Encourage opportunities for self-sufficiency and increase level of supportive services
- Establish staff development
- Improve the quality of fiscal management systems
- Develop and implement a plan for diversification and entrepreneurship
- Identify additional housing needs in Trumbull County

If the PHA is designated as troubled, describe the manner in which financial assistance will be provided or other assistance

The Trumbull Metropolitan Housing Authority has not been classified as a troubled PHA, no actions are required.

AP-65 Homeless and Other Special Needs Activities – 91.220(i)

Introduction

Describe the jurisdictions one-year goals and actions for reducing and ending homelessness including

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The City of Warren is part of the Trumbull County Housing Collaborative which was established to coordinate and develop services for homeless and low income persons. The Collaborative consists of representatives from over 50 public, private, and non –profit agencies with a common goal of providing a continuum of care to these individuals and families especially those with special needs. The Collaborative meets every other month to share concerns methods, resources, etc. This cooperation among agencies has increased both the efficiency and expediency of reaching out to homeless persons and accessing need.

Addressing the emergency shelter and transitional housing needs of homeless persons

The City of Warren, through its CDBG program, funds an emergency shelter that provides short-term housing for the homeless in Warren.

In addition there are other emergency shelters in the area, although not funded directly by the City of Warren, that work with the City and the Trumbull County Housing Collaborative in order to ensure that best efforts are being used to maintain both a physical facility and provide the needed services to move the individual towards more permanent housing.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

Once again the Trumbull County Housing Collaborative and its member agencies have done outstanding work in identifying not only the needs of homeless and near homeless individuals and families but have tailored programs and assistance to ensure that through the Continuum of Care these persons can move to permanent and traditional housing as quickly as possible with the help of the support services necessary to make this transition successful.

The City and the Collaborate will continue to improve the situation by:

- Seeking increased supportive services, including job training, education, and drug counseling, to keep those at-risk individuals and families from becoming homeless
- Working to improve the coordinated tracking system to monitor homeless individuals from the initial service or housing provision to eventual self-sufficiency and permanent housing

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs.

The City of Warren does a consistently good job in its support of programs and organizations that reach out to low to moderate income individuals with the number one concern of either keeping them in their homes or finding them suitable housing. As a member, the city does work with the agencies that make up the Trumbull County Housing Collaborative and the Continuum of Care for their support in these efforts.

The City's Emergency Repair program is also effective in assisting families with needed repairs and in making properties accessible for handicapped individuals in an effort to keep these families and individuals in their homes.

AP-75 Barriers to affordable housing – 91.220(j)

Introduction:

Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment

Zoning and subdivision regulations in the City of Warren are not a source of obstruction to the construction or rehabilitation of housing units; in addition, the Trumbull County subdivision code presents no barrier to affordable housing development or maintenance.

Discussion:

The main issue affecting the ability to meet the underserved needs in the city is the lack of funding. In order to address this obstacle, the City continues to partner with other government agencies, development organizations, private and non-profit corporations, advocacy and neighborhood groups and community foundations in an effort to explore other funding sources and creating partnerships aimed at benefiting low to moderate income persons.

For that reason, the City is often one of several partners in projects that promote a comprehensive approach to housing, community services and economic development. These and similar policies have allowed the City to maximize the amount of support provided to low to moderate income individuals, and to area wide benefit.

The City has established a significant number of partnerships with government agencies, development organizations, private and non-profit corporations, advocacy and neighborhood groups, public schools, behavioral health and shelter service providers, and volunteer groups. The Community Development Department seeks to preserve these relationships while extending the City's role as a coordinator of community resources.

Introduction:

Actions planned to address obstacles to meeting underserved needs

Housing and development efforts will continue to be directed towards those neighborhoods within the City of Warren where 51.3% of residents are considered to have low- to moderate-income. Low-income persons are those individuals who earn less than 50 percent of the area median family income (MFI) as determined by the most recent U.S. Census; similarly, moderate-income households are those which earn less than 80% percent MFI.

Actions planned to foster and maintain affordable housing

The City of Warren is committed to the on-going goals of providing decent, safe, affordable housing and to improving the quality of life for all residents. The City will increase homeownership rates; support short term emergency shelters for local homeless individuals and pursue the expansion of a supportive housing network for those low- and moderate-income homeowners; and reduce the number of abandoned and dilapidated structures that blight neighborhoods and endanger residents.

Actions planned to reduce lead-based paint hazards

The City continues to implement HUD regulations for the identification and removal of lead based paint hazards in housing. Lead inspection, testing, risk assessment, resident notification and clearance have all been implemented into the housing programs and are performed by Mahoning County Lead Task Force. These activities have reduced the number of housing units with lead paint hazards and provide low to moderate income persons the availability of safe decent housing.

Actions planned to reduce the number of poverty-level families

CDBG and HOME resources are targeted towards supporting those very low- and low-income households in their search for services. Additional funding resources will be sought to allow existing agencies and organizations to continue/expand programs which minimize the number of households living below poverty. The Consortium will work to end discrimination in the housing industry through its continued support of the housing education, outreach, and credit counseling programs.

The Consortium will also coordinate with local CHDO's and area social service providers to see to the housing needs of very low- and low-income clients. This would include Owner-Occupied Rehabilitation, Homeownership, and housing education and outreach programs. Prevention of housing discrimination, especially in minority households and those female-headed households with children is a priority.

Actions planned to develop institutional structure

Implementation of the Consolidated Plan through this annual Action plan will rely on the concerted efforts of a consortium of public and non-profit agencies, service providers, and the community at-large. Key organizations include the Warren Community Development Department, Trumbull County Planning Commission, Trumbull County Metropolitan Housing Authority, Warren Redevelopment and Planning Inc., and Paragon Residential Solutions Corp.

Actions planned to enhance coordination between public and private housing and social service agencies

Public participation and civic cooperation are fundamental elements of all successful housing and community development practice. In order to assemble a useful and action-oriented plan that assists residents, particularly those individuals of low- or moderate-income and those with specific housing and supportive service needs, the Community Development Department developed a consultation program between policy and program stakeholders, civic and community leaders, professionals, and department staff.

Specific Community Development Block Grant Certifications

The Entitlement Community certifies that:

Citizen Participation -- It is in full compliance and following a detailed citizen participation plan that satisfies the requirements of 24 CFR 91.105.

Community Development Plan -- Its consolidated plan identifies community development and housing needs and specifies both short-term and long-term community development objectives that have been developed in accordance with the primary objective of the CDBG program (i.e., the development of viable urban communities, by providing decent housing and expanding economic opportunities, primarily for persons of low and moderate income) and requirements of 24 CFR Parts 91 and 570.

Following a Plan -- It is following a current consolidated plan that has been approved by HUD.

Use of Funds -- It has complied with the following criteria:

1. Maximum Feasible Priority. With respect to activities expected to be assisted with CDBG funds, it has developed its Action Plan so as to give maximum feasible priority to activities which benefit low- and moderate-income families or aid in the prevention or elimination of slums or blight. The Action Plan may also include CDBG-assisted activities which the grantee certifies are designed to meet other community development needs having particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community, and other financial resources are not available (see Optional CDBG Certification).

2. Overall Benefit. The aggregate use of CDBG funds, including Section 108 guaranteed loans, during program year(s) 2019 [a period specified by the grantee of one, two, or three specific consecutive program years], shall principally benefit persons of low and moderate income in a manner that ensures that at least 70 percent of the amount is expended for activities that benefit such persons during the designated period.

3. Special Assessments. It will not attempt to recover any capital costs of public improvements assisted with CDBG funds, including Section 108 loan guaranteed funds, by assessing any amount against properties owned and occupied by persons of low and moderate income, including any fee charged or assessment made as a condition of obtaining access to such public improvements.

However, if CDBG funds are used to pay the proportion of a fee or assessment that relates to the capital costs of public improvements (assisted in part with CDBG funds) financed from other revenue sources, an assessment or charge may be made against the property with respect to the public improvements financed by a source other than CDBG funds.

In addition, in the case of properties owned and occupied by moderate-income (not low-income) families, an assessment or charge may be made against the property for public improvements financed by a source other than CDBG funds if the jurisdiction certifies that it lacks CDBG funds to cover the assessment.

Excessive Force -- It has adopted and is enforcing:

1. A policy prohibiting the use of excessive force by law enforcement agencies within its jurisdiction against any individuals engaged in non-violent civil rights demonstrations; and
2. A policy of enforcing applicable State and local laws against physically barring entrance to or exit from a facility or location which is the subject of such non-violent civil rights demonstrations within its jurisdiction.

Compliance with Anti-discrimination laws -- The grant will be conducted and administered in conformity with title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d) and the Fair Housing Act (42 U.S.C. 3601-3619) and implementing regulations.
